❖ ADD ADDITIONAL PHOTOGRAPHER TO ANY PACKAGE - \$600

Why add another photographer? Coverage from different angles and areas. Notice how almost any event or program on TV is covered with more than one video camera. The view that you are seeing is switched between cameras to select a different angle or view. The same principle applies to still photography of your wedding. For premium wedding coverage, more than one photographer is essential. While one photographer is involved with the formal poses either prior to, or after the wedding...the other photographer can already be at the reception location capturing candid moments of your guests.

WEDDING ALBUMS

Unique albums individually created by Thomas Nance are designed around the your wedding day photographs. Our albums are flush mounted, meaning the photograph extends all the way to the edge of the page; in fact the photograph is the page. Virtually any creative border, mat or special effect can be applied to your wedding pictures even multiple pictures per page from one image to twelve different images. These creative pages are sent to our lab and output as portrait quality prints. The prints are then hand mounted to become the pages, coated by a heavy protective lacquer finish, the edges of the pages are carefully gilded and bound into covers made of top grain cowhide leather which can be custom imprinted. This process completely seals your prized wedding photographs against fingerprints and abrasions into full bleed pages into an album that will surely become a treasured family heirloom.

Album prices include: the cost of the prints that make up the album, creative layout work, album manufacture, shipping and front cover stamping. Allow six - eight weeks for album production once the creative layout has been approved by you.

Suggested Photographs - This is not an inclusive list of poses. Use this as a guide and a reminder for poses and groupings that you desire. We strive to obtain the pictures that you want and will make every reasonable effort to obtain the shot. However this list does not represent a binding agreement. Often times there are limitations beyond the control of the photographer, such as time constraints, facility limitations, ambient lighting levels, or simply an individual may not be present for a grouping.

It is very important that an individual be appointed by your families to assist and help in "staging" these groups. We do not know who the family members are. This is usually a VERY TIME SENSITIVE PERIOD. In order to make the best use of this time prior to the ceremony, and after the wedding ceremony when your guests will be waiting for you at the reception, having someone who knows the family and can assist by having the next grouping ready and "on deck" will expedite this process greatly.
